

BELIEVE IT or NOT!

**CNC BALLSCREWS & BEARING CO. PVT. LTD.
OFFER
NEFF GEWINDETRIEBE GMBH
TO DIN 69051**

The Precision Ballscrews we deliver are products of world class German Engineering & are among the best in the world with excellent pitch accuracies.

Our Ballscrews are superior to conventional GROUND CLASS of Ballscrews. They are produced from High quality German Steel with GOTHIC BALLPATH by CNC CHIPLESS roll forming machine to maintain high level of metallurgical grain orientation, heat treated, ground and SUPERFINISHED!

The Ballscrews are pre-loaded to "RHOMBOIDAL" ZERO BACKLASH.

Our Ballscrews are engineered to use LARGEST Ball Diameter Balls and maximum number of circuits for "HIGHER LOAD CARRYING CAPACITIES" (Real and not Theoretical!). This ensures many years of precision in performance, reliability and long life! WE HAVE THE RECORD OF 25 YEARS ZERO FAILURE!
